As discussed on today's call, pages 12 and 13 of the Contract Termination Memorandum pdf is the detailed list of materials from Ferguson Waterworks in the amount of \$18,160.75 and a list of equipment is also on page 15 of the same pdf for Journey Air Conditioning materials in the amount of \$9,177.00. (Total Direct Material Costs = \$27,337.75)

The major items from Ferguson include:

- 6" Butterfly Valve with Handwheel - \$1,196.59
- Eyewash Station - \$781.61
- 1" Deep Well Air Release Valve - \$445.63
- 6" Silent Check Valve - \$1,494.14
- 0-60 psi Pressure Gauge - \$309.38
- 0-300 psi Pressure Gauge - \$734.05
- 6" Adjustable Pipe Support (3 ea) - \$1,500.00
- 2" Combination Air Release Valve - \$846.59
- 6" Dresser Coupling - \$211.26
- Chlorine Injection Quill - \$655.24
- 8" C900 DR18 PVC Pipe (180 LF) - \$4,804.56

The rest of the items are primarily 6" bolt kits, gaskets, small galvanized steel piping and fittings, small ball valves, and PVC pipe fittings.

The major items from Journey Air Conditioning include:

- The well building air conditioning unit and grills
- The well building air intake louvered screens and wall sleeves
- The well building thermostat

Let me know if there are any other questions or concerns.

Thanks

Curtis
